

Expand MonitorStand Set-up Instruction

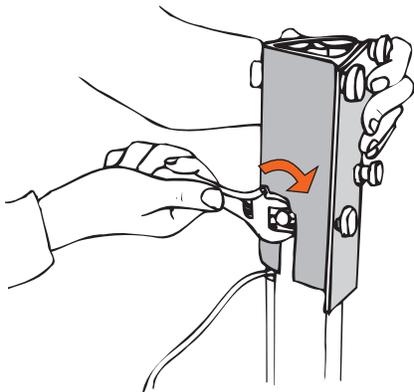

1. Feed power and video cables through the hole in the base.

2. Insert vertical pole and tighten the nut on the bottom

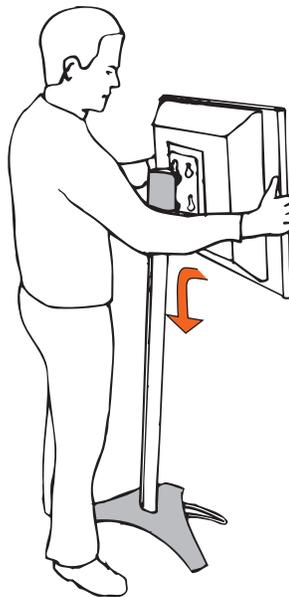

3. Pull off the plastic channel cover and run the cables underneath. Reinstall the cover over the cables.

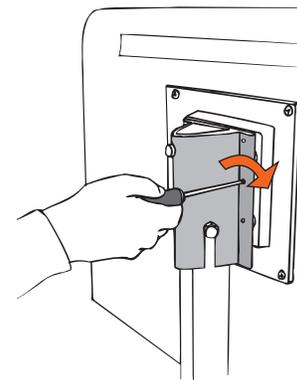

Anti-theft 1

4. For a VESA 200x200 mounting pattern, mount the adapter to the vertical pole and tighten the nuts for theft protection.

5. With the adapter plate mounted to the back of the monitor, align the four key holes together and slide the monitor down into place.

Anti-theft 2

6. For added theft protection, insert the supplied screw to connect the two brackets together. (This step is optional)

(Tools not included - Adjustable wrench and Phillips screwdriver recommended)
