

SQUARE IRON BASE (SKYCAP UMBRELLA)

OUTDOOR BANNER STAND

PRODUCT CODE: SUSIB

On frame On graphic

PRODUCT DESCRIPTION

The Square Iron base is compatible with both square and hexagon Skycap umbrella frames. The base can be used indoors to give you a free-standing option and outdoors when an umbrella table isn't available. The heavy duty construction is enough to keep the frame grounded in moderate wind and ideal weather conditions. The pole holder and tension knobs keep your umbrella frame positioned still.

PRODUCT DIMENSIONS	23.75"L x 23.75"W x 13.75"H
	POLE 2.25" DIA.

PRODUCT CONSTRUCTION

Iron with plastic components

SET UP INSTRUCTIONS

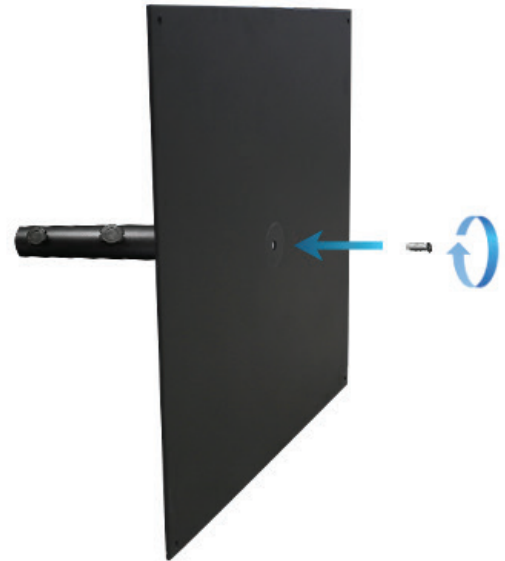

STEP 1

Align the pole holder (upright) to the hole found in the middle of the base plate. Make sure the tapered end of the hole is faced down (under) on the base.

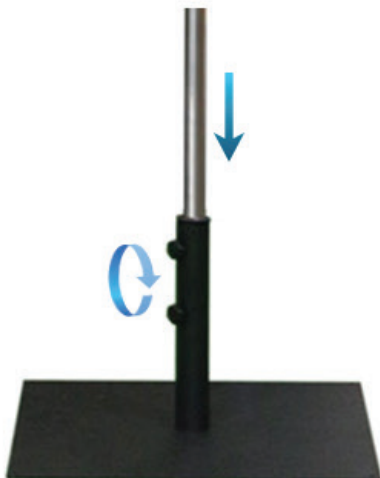

STEP 2

Insert the screw from the bottom of the base and screw into the threaded hole found at the bottom of the pole holder. Tighten until securely attached.

STEP 3

Insert the lower shaft of the umbrella frame into the pole holder and tighten the tension knobs until the umbrella frame is secure.

STEP 4

The umbrella is ready to be displayed.
